WALTHAM STREET DIRECTORY 1912

(Copyright 1912 by W A Greenough & Co)

Giving the location of each street, and showing what other streets and places run from it or across it, with the number at which they intersect

From this list the location of any number on a street can be easily ascertained; as for instance, wishing to know at what part of Adams street No 165 comes you look at Adams and find that Brown street crosses at 157, and Robbins at 175, showing that 165 Adams would come about half way between Brown and Robbins.
